

Package ‘GLIM’

June 27, 2026

Title Valid inference using the Inferential Models Framework

Version 0.0.0.1001

Description What the package does (one paragraph).

License MIT

Encoding UTF-8

Roxygen list(markdown = TRUE)

LinkingTo Rcpp, RcppArmadillo

Imports Rcpp, RcppArmadillo, pbapply, fastglm

SystemRequirements C++20, LAPACK, BLAS

Config/roxygen2/version 8.0.0

RoxygenNote 8.0.0

NeedsCompilation yes

Author Joseph Harrison [aut, cre]

generate_unit_matrix	1
prob2poss_gamma	2
Index	3

generate_unit_matrix	<i>Generates all random numbers at once, so doesn't need to use the slow apply Doesn't work if you pass in more than one column</i>
----------------------	---

Description

Generates all random numbers at once, so doesn't need to use the slow apply Doesn't work if you pass in more than one column

Usage

```
generate_unit_matrix(n, d)
```

prob2poss_gamma	<i>Will throw an error if the_compared_theta is a scalar</i>
-----------------	--

Description

Will throw an error if the_compared_theta is a scalar

Usage

```
prob2poss_gamma(X, y, samples, the_compared_theta)
```
